More often than not, teamplay can't be encouraged on public servers. Which is a shame, really.

More reason to play with clanmates, though.

only way to get a REAL teamplay game on is either a fun/clanwar or a community war

but the best teamwork was hands down the one @ .. former clanwars.cc

I find that the best teamwork is on fan maps.
Unfortunatly most of the Renegade community do not play fan maps at the moment.

unrules is stupid. once i got forcerged because i killed a sakura with my apc, and that guy was a mod. he pissed off for nothing. its just he was so fucking stupid to find a cover and protect himself.

thomasemperor was a mod there long time ago, and he was doing his job pretty good.

If you have a regular server where you 'know' some people, usually just getting buds on TeamSpeak is good for teamplay.

Actually Unrules newmaps is full of symphatetic people that known how to teamwork. YEs there are sometimes soem random noobs but it dosent matter. One disadvantage of UN-newmaps are a bit overboard rules.

Oh, the irony. UNRules is probably the most garbage server Renegade has running, currently. And shame on you for besmirching n00bstories' good name!

Best place? Dunno really. Community matches aren't that frequent. Clanwars..you'd obviously want to join a clan.

But if you're interested in public gaming with teamplayers TheKOSs2 - BI AOW server usually has maybe 6-10 people on TS during evenings (European time). Of course, because it's a public server, there's bound to be some n00bies in it as well, though.
(and TK2 as well as BI both recruit peeps every now and then)

Just get a team together, make a clan on clanwars.cc, and start warring people.
