Can someone give me some help, i want to edit an existing map. I just wanna make the recon bike faster and add it to a map.

I tried installing gmax but i get a message about "cannot download the application...."

Thankyou

get renegade public tools and use level edit to edit stuff.
[http://www.renhelp.net/index.php?mod=Content&action=view&id=Getting+Star ted](http://www.renhelp.net/index.php?mod=Content&action=view&id=Getting+Star+ted)
then get some level edit files.

Also check www.renhelp.net / www.renegadehelp.net for tutorials

Look at the tutorials they will tell you when and how to place stuff, also I think it is like
Vehicles>NOD>Recon Bike and then hit make

well, you could edit objects.ddb and place it in the mod (you can't play it online)
