Man-made Web Bots even think something is going to happen in 2012. This is real, it was talked about on the History Channel.

The Mayans, the I Ching, and these "Web-bots" all point to 2012 as the end of the world. What do you all think is really going to happen? I've become very intrigued by this in the past months, and I've come to the conclusion that this may actually be real. The source of all this phenomena, I believe, is from an extra-terrestrial species. I know it sounds crazy, but just how alone do you really think we are in this universe?

When 2012 comes to pass, you can bet some morons are going to find some set of four digit numbers that start with something resembling a '2' from some ancient-Zulu-Mongolian-Kumbaya cave, and believe THAT will be the apocalypse.

What ever happened to Y2K?

Well if Obama really is the anti-Christ (which i do not believe) then 2012 sounds about right for the world to go up in smoke.

But then again the Y2K thing came and gone and no ones PC blew up.

The following link is about 63 end of the world predictions that obviously never happened

http://www.religioustolerance.org/end_wrl2.htm

from that link, sound familiar? 2012

Quote:

1982: Astronomers John Gribben & Setphen Plagemann predicted the "Jupiter Effect" in 1974. They wrote that when various planets were aligned on the same side of the sun, tidal forces would create solar flares, radio interruptions, rainfall and temperature disturbances and massive earthquakes. The planets did align as seen from earth, as they do regularly. Nothing unusual happened.

If the wako's are right and the world is ending in 2012 no one will be around to say "we told you so"

'Swine Flu' is the dumbest shit ever. I can't believe they're aiming to call this a pandemic, and yet around 30K people in America die from the regular flu annually.

Y2K was a retarded scare anyway. OH NOES, OUR COMPUTERS ARE SO DUMB, THAT THEY WILL BLOW UP WHEN 00 COMES AROUND EVEN THOUGH OUR DATE SYSTEM WAS SET UP TO KEEP GOING THROUGH IT!!!!

The December 12, 2012 thing, from the way things are going could or could not happen. I'll reserve judgement until March of that year. I am leaning more towards it happening even though I'm not a conspiracy theorist.

Wasn't the same thing said about 2000? Any way some dumb 12 year old comes up with this shit
and he tells his dad and a couple friends then they spread it at school and work and everyone
starts spreading it for ex. ALIENS they've been on earth for 2 million years or more but no one got
a good video or pic of them why cause some dumb fuck saw a cloud and thought it was a
undentufied flying object (UFO) so no I don't really belive that shit

Unfortunately, these doomsday rumors are not created by twelve year olds, but instead, seemingly rational grown-up people that aren't able to reason as capably as twelve year olds.
