I thought I should make one big overview of all my interiors
I modeled/textured the AGT + GDI PP + Obelisk yesterday to fit them in to the movie. To bad the
quality of the music is kinda low thanks to my video editor..

If I get good reactions I will release

I have a suggestion if you're lost for things to do.

Re-model characters like the Technician, chem sprayer (chars with low res textures) making the new models look similar and when mapping make a nice high res texture while staying true to the Renegade theme.

It's just a thought

Thats what they already do for Renegade-X

I saw some concepts for Tiberium and Renegade 2, and I might create a character like that.
