Bridge the language barrier.

Scrin is banned, no? Do we need to see screenshots from him? No.  
Even if it is a project you two are working on.

I'm pretty sure di3 did this some time ago and it wasn't appreciated.

The fact he has been banned for about 4-5 months altogether gives a good indication.

You can say what you want, but scrin is a moron. I am releasing his stuff because he needs to realise what a fool he is. He is talking alot requested.

Recently I lost a couple of files which I made for scrin, but then he refuses to give them to me, simply because I didn't make that reque from him. so 😊

Scrin is a god at being a fag and not releasing his stuff. Yes indeed. I mean, the TT patch is coming out soon (we think) why wont he release his stuff...I personally think scrin is a moron.
