Ok I have seen skins that completely change the model for a vehicle, take Di3Hard's Tiberian Dawn Beta Harvester for example the model is changed way differently now I asked a while back on how to replace the stealth tank in Renegade to the one from Reborn I was told It would give me lots of server mismatch and disconnects. Between what I was told and looking at what the skins has made me confused. How do you do it and could you show me how to do it myself plz.

This link is what I had attempted to do and was told about what would happen here. Read there for more info

doubt it, would be boring to do this all the time, has to have some way around.

@vance:

You can change some vehicles, like harvy and turret

It can be annoying, but that matches perfectly with Scrin, because he is annoying to

I don't believe there is a way around it unless I see it myself.
