Hey guys,

Could someone tell me please the w3d file name when you shoot with a laser gun against the wall?

Please help me

EDIT: e_laz_metal

lol I looked at that one didn't think it was it.

It's the same one the flamethrower leaves, meaning that if you replace the laser's scorch mark you will also modify the flametank's/flamethrower's scorch mark. Anyway, the file is scotch01.dds

He wants to change the model of the smoke/fire stuff which comes when you shoot with the laser. Not the burnmark..

Not the burnmark..

yes, and i looked at the bullet laser hitting a heavy metal surface
