<http://www.roleplay2.com/index.php?page=readme.php>

I went to this site and did what it said, I copied the scripts.dll to Renegade dir and the other files to the Data dir. When i launched game it said shades were not found. Help plz.

The website PLEASE READ THIS

To run the mod, You MUST install scripts 3.4.4 before you install the custom scripts file included with Roleplay 2. You can get scripts.dll 3.4.4 Here!
