Nice, but I'll be doing some serious editing. Plastic wrap looks kinda gay if you ask me. Otherwise it's really good. Thanks.

By the way, your download fails.

i noticed that you didnt just change the textures and put some stuff on it.
you srsly added another "layer" on the pp (same with the wf) that sticks out about a foot.
and the shine is kinda ugly too =/ should look more like concrete than shining armour
