Can we ban madrackz? The guy's a useless asshole, he does nothing but brag about his ugly ass Renegade modifications and attack other people for no particular reason. He's like Scrin, but without the creativity. And minus a few IQ points.

I'm not sure how it's remotely possible to have a lower IQ than Scrin.

He used to be alright, but now it seems like he's going through this phase of absolute dickery. It's not worth a ban, though. You just have to learn to not be offended by stupid shit, especially when it's coming from a guy who calls other people nerds while bragging about his awesome HUD skins.

I'm not offended because I'm never the one he's assaulting, but I'm sure other people are.

Heavy wasn't mean to random people as far as I remember, Scrin was just kind of braindead and arrogant, and troop hated me with a passion so I can't comment there... he's pretty much a case all in his own.

You guys seem to imply I'm upset and adamant about the issue, when in reality I just don't give a shit. I just wanted to see how people felt about the moron.

P.S. And besides, do you think he's even intelligent enough to grasp the concept of "trolling"?

As much as I DESLEIK him, it isn't worth a ban. Maybe a strongly-worded warning, though.

A strongly worded warning is on the way to him, in the meantime, I suggest the "Ignore this user" option.

I don't like the way he's been bragging about having scrin's stuff.

It doesn't annoy me in the slightest, i just find it really pathetic, attention seeking, showing off.....childish basically.

I'm mostly annoyed by his spam in technical subforums. Also, it seems Scrin has this kind of influence on everyone he communicates with.

You still wont get my Bloom and Skins,

And why did you guys didnt ignore me? to see my posts when i release something cool?

Never expect that again :D

BTW. to bad noone checked APB forums. Theres a big difference

That's because the majority of people who play APB are new to the Renegade/APB engine and are unaware of what normal is.

If he's just abusing and spamming certain forums, we can remove his ability to just post there and let him keep posting in other ones like here and the Spam forum.

LOL, my computer can't even run Renegade with bloom enabled worth a shit, and my Renegade has no skins except for the reticle. No, I just genuinely think you're an ass.

On this forum, the only thing that'll get you banned is a very high level of dickery and saying things that crimson doesn't like.

So the not banworthy argument isnt that strong.

I think it's just funny that he thinks his stuff is hot shit, and that he's totally popular because of him not releasing it, when it's really half a dozen people who may actually care.

Scrin is the internet equivalent to AIDS.
