Which is when I got it. It was the Black Edition.

Yeah Black Edition definitely was \$9.99 for quite some time. I guess that was a recent change on their behalf.

GoGamer.com had a 48 hour special two days ago, where UT3 for PC was priced at \$8.90

The EB Games by my house is selling it for \$9.89 Canadian.

And as someone already mentioned, it's \$14.55 on Amazon, which isn't that much more.

All in all, you could find the game for incredibly cheap.

With the amount of work I have seen being put into it, a pricetag wouldn't be disappointing at all.
