When you spawn, you spawn as a GDI Soldier or NOD Soldier. I want to change this and make the player spawn as something else . How do I do this ?

Nope. There is a script that you attach to the spawner that changed your character but i forgot it.

I found a script
JFW_Custom_Spawner, or something like that

you can do it in a way, still not sure how i did it. I think you should create custom start up
spawners/change the soldier preset/both
