Scrin's Nod APC is actually one I made. Please keep that in mind. He simply edited out many things.

Also, keep an eye on this thread cos I'll be releasing a Nod C&C3 APC soon.

I thought people called it 'Scrin's <insert here>' because Scrin is a thieving piece of shit who pitches other people's works as his own.

Then make a topic when he releases it. No sense in having all this extra crap from the whining about scrin.
