Hi, I was wondering how some people can make their renegade characters to do cool moves. I saw someone doing it, and I asked them where I can download the mod. But he said it was a script.

So does anyone know how I can do this? Thanks.

It's part of SSGM. As long as you have an up to date scripts version and you are playing on a server with them enabled you can use them by just pressing the num lock numbers.

Can't you use them client side?? For instance in a LAN game? Or is there anyway so you can use them?

I never looked into it myself

Atually, I tryed it on a server I know that you can do it on, and it didn't work. So all I need is 3.4.4, and nothing else?

Scripts 3.4.4, and you're good to go (Requires host to be running SSGM, or a version of scripts)

Taunts were also available in 2.9.2, so if you can't run 3.4.4 for whatever reason, you can get 2.9.2 instead.
