I was playing on black-widows coop server with peeB and some other player. First game went fine but there was a problem on the second game. PeeB told everyone to not go beyond a certain point and trying to work together I think everyone stayed back for the moment, which was fine for the moment. I can only assume he didn't see me with all the action going on in the area and killed me for going ahead..... I told him that wasn't right, also that I in fact didn't even move on, and noobed him for mod abuse. He then qkicked me for "fag" because I noobed him... I came back and he failingly tried to bmute and mute me immediately after and when that failed he proceeded to kick-ban me instead...

Wtf is he doing killing me for playing anyway? Is this kind of immaturity acceptable in black-widow? Is it normal behaviour for black-widow mods to act like nazis or is it just him?

You'll have to oppose to your ban on the forums of this server, if they have any.

Maybe you shouldn't play on servers with retarded rules... just a thought.

This thread lured me in here with a misleading title, and instead made me read a bunch of whining. I demand the OP give me my thirty seconds back. With interest.

I agree, I was expecting black widow spider porn.

Just out of curiosity, how did you take actions against this peeb dude without knowing stallions in-game name?

My in game name is stalli0nd (with a zero), but I admit I'm also curious to know what's being done to take action against PeeB.

As he said, he plays as "stalli0nd" so it's pretty easy to infer as to who he is.

I agree, however he said this:

So it's clear that he did not know his in-game name.

I was just curious if he blindly accepted Stallions side of the story (not that I doubt him).

I'm not too bothered, was just interested. No biggy.

Yeah, Thanks to report the abusive moderator. I don't need Peeb's side of the story since I believe you stallion and I know Peeb can be abusive. I have first removed his moderator status, if he can prove he isn't going to abuse anymore he will be a temp mod but he won't have a change to become a full mod again. I gave him a change and he blew it.
You have been unbanned, sorry for any inconvenience and we hope to see you in-game soon.
Thanks again for posting this.
