I just played to stupidest game ever. There were 40/40 people in the game. I bought a mammoth, headed to nod. And it was funny.. all the nods were attacking my base. So with that 1 mammoth I took out all but 1 of nods buildings. It was sad as hell. I had double the person in 2nd places score by the end. Then.. with 1 building left.. we lost.. Why? Because 19 of my teammates ALL had the lowest score, all the nods were all under me, only 1 nod had a score lower than one of my teammates. And I only got 0 on the ladder when I had twice the person score who was in 2nd.

Just played another game... won a 120minute round that I joined late(45 mins into).. I was nod, our team was loosing by 2,000 points. Nod had refinery and hand of nod down, gdi had no wep factory.Soo.. I got a APC once I got enough money from shotgunnig the snipers, and putting timed c4 on everyone. And I ran over all the idiot havocs and gunners, and my APC only died once(from rushing pp, but teammates sucked so it didn't work) and so I got another form all th money I had.. ran over 35+ people in the game, and most were 100 chars.. poor GDI lost by only 300points after time limit. It's sad how much people can suck.. :/

Most I've gotten was 27,000 But guess what?... I was on the losing team and got 0 ladder points. And the mammoth tank game, if I won, I would of gotten around 650.
