Yeah, I have to agree... It is starting to happen a lot more in Renegade... (Maybe all the CS people are starting to migrate)... But now it happens almost every other game.

i played in one gaem on under. 24 ppl. I was gdi and of course 5 mintuests into the game they flame rush with like 7 flmae tanks. somehow we stop it. But then he head back out into the field and another 7 are coming from nods base. this happened like 5 times in 10 minutes. each with 6 or 7 flame tanks. and you started with 0 bucks so it seemed impossible to me that that could happen becuase they never succed or destoryed any buildings.to me this seemed like some hack for infinite money or flames are free..... but somehow in the end they only one buy points and only by about 500.

Great picture ACKToday I chemmed 3 Gunners to death in Field (inside tunnel) and they blamed on the lag or I cheated. They got chemmed from behind and have little health left.It seems like they are those three lying on the ground.

Is there any reason for people to reply with quoted text... especially if it's a picture... and simply add "LOL" as their only comment?Come on... at least don't freakin waste our bandwidth/time with the quote if that's all you have to say.
