Hey, I've just started playing the missions, which are a lot easier after playing multiplayer. However one thing that has come back to haunt me after playing other 1st person games, is the hunt for the elusive keys. I'm on the dam map, where u have to rescue Mobiu e.t.c., i've destroyed the hand of Nod with an Ion cannon. Now how do I get out? The greenish doors need a level one key card, and I can't find it anywhere in the Hand of Nod. where is it?

in the very front of the hand of nod, there are 2 elevators, take the one that goes UP!!! there will be a green key card around there, maybe its outside....once u pick the card up an ingame movie will pop up...man i love those ingame movies...heheh i especially like the boat movie.. "ISNT IT UNFAIR FOR U TO GO UP AGAINST THE ENTIRE SHIP?" "yea but i gotta do it...maybe ill shoot left handed..." ahahahah thats soo funny

you know, it would have solved so many problems if he'd shot Raveshaw in the head. Idiot.
