Hehe, I put C4 on a PP MCT, then a guy walked in - I quickly ran up to a PT and stood there. He ran by and ignored me. I also get accused of "editing code or something" when I shoot them down with a sniper in their orca/apache. I guess they think I changed the damage level, but I think they're just retarded. But really, we have a reason to hate them, they are very annoying but they also provide a good laugh. We need to make a central topic just about the "Anti-n00b movement".

People just shut up and post about em not here anymore. I remembered when n00b chatter was very low and tactics were actually discussed. Everything would be much better off if we did have a "n00b complaint forum just to make every1 happy.

I killed a n00b in an orca with 4 shots from stealth tank and he called me a cheater. It's funny! We don't hate n00bs. We hate n00bs that don't listen. And we like to share funny stories about n00bs.
