Hi all.

I'm just making a topic about my Ren videos. They mainly consist of...

- infantry and tank battles (some can call it ownage)
- teamwork
- rushes
- other random and funny stuff
- Frank Klepacki music
- and general fun with the title of each video heavily reflecting their themes.

Each video shows Renegade heavily skinned with an attempt to keep it realistic and tidy (so no rediculus bloom or anything like that).

Also a lot of the videos have links in their descriptions to skins and sounds downloads, check them out!

People who watch all the videos in order may be able to see my constant improvement in video editing.

Enjoy

Yeah, I had to remove alot of my videos as there were too many in my opinion. Only the best ones are left now but maybe I might see if some of the videos including the deleted ones they can be hosted for download some time.
