Ever have those times when the harv's AI stops when the PP dies? Here's me trying to put it to some use instead of just having it sit on the air strip.

Here's using it to stop GDI APC rushes from under the bridge:

Here's a solution that involves less free points for the enemy:

Map ended, so I tried it on Walls:

These screenshots are ancient, but still kind of amusing, I guess.

You should use it as shield for your Light Tank. Or position it under the wall on C&C\_Walls in a way that allows you to stand on the Harvester while it's still gating off the entrance a bit. A more hilarious version would be to get a few SBHs on it and move it to the enemies wall (left or right corner) so they can jump inside GDIs base.

I think we're gonna need more ammo.

Toggle Spoiler

So totally forgot I had this, and it made me laugh.

Toggle Spoiler

I don't think the arty was meant to be used like this.

Normal veh limit = 7 + harv. But it can be extended server side (only for people with scripts).

This month's screenshots were marked by harvesters! My preference went to Dover's screenshots of "putting the harvester to an alternative good use".

How can there be 27 meds when there are only 25 GDI players?!?!?! At least 2 of them are in Orcas too.
