Hey Folks

I wasn't playing C&R Renegade for a long time. Last time I played it I had a mod of wich I cant remember the name, but I remember that you had pretty much characters and vehicles. There were f eks a minelayer character wich had also mines for tanks, or the technicians had a pistol wich had 24 shots an could shoot faster. You also could buy some kind of repair vehicles and you had skuras chopper from the singelplayer game.

Does someone remember what the name of this mod was? I want to play it once more ^^
