You joined a few months ago and have only 27 posts. How many people here can possibly know you enough to form an enforced opinion?

Then you'd be asking the wrong people. Most of the people on this forum don't actually play the game. It's kinda funny, really.

Personally, I don't know who you are.

I don't know you, but only people who suck makes threads like this, especially outside of Spam Fest, so I can confidently say you suck.

Yes, You HEARD. I did cheat at one time, It was a mistake. I'm now admin and mod at many servers and a lot of the servers the bans have been removed from.

I know mostly people from Jelly-Server hate me. (And HaTe for some odd reason)

I made this poll for fun, To see how many people here hate me actually (Lol)

But, Chew, If you play with me at any time ingame you will see that I pretty much suck (Well, I'm okay sniping, And pretty good at AOW.), But you will see that I very much so do not hack anymore, And I haven't for a good 2-3 months.

So, If you don't want to vote, Don't vote, Don't reply, I don't care.
I want people who have actually played ingame with me to vote and reply.

Thanks

What "respectable" server would just remove bans and make former cheaters mods/admins? I did vote for the "you suck" option as I think cheaters suck.

Never used bigheads tbh. The only thing I ever used online was RGH. (I used DH, and ROF In singleplayer)

And, Chew... What respectable server would just remove A ban??? Uhhm, MatriX? 1337-Snipers? Exodus?
And to your other question, In my own servers I've caught around 5-10 Cheaters between the 3 month period. Mostly RGH'ers.
I'm not encouraging anyone to hack online, But the hacking I did just made me a better mod tbh. I know the bugs of the cheats, And I know what to look for.

I have to agree with you, you wont be such a good mod if you don't known how hack works, and how players use them. I respect you cause i used to hack on n00bstories for fun, just there. I've lost my mod powers due to that. Well i wish i have them back somehow... Anyway people hardly believe then someone who used hacks will not use them again. Actually its matter of a person, i wouldn't believe person who used it as advantage in game cause he sucked badly. I was curious about that as much as i tried.
