Anyone know where I can dl cool renegade skins? I tried file planet, but i couldn't find any decent skins.

I'm looking for the tiberium HUD and the clear sniper lens, to get rid of that pesky green one. Any help or direction would be awesome!

Are you guys kidding me? www.Game-maps.net has all of the skins you will ever need. Clear Scope Link <----- There is the link to the clear scope ZIP. As for the tiberium HUD that can be found on tiberiumplanet.com or something like that. It was made by one of the users here so the link is also in there signature somewhere.

Please be aware that clearscope is considered a cheat on multiple servers.

There used to be a blue tiberium HUD on Jelly's site... but I checked their skins section the other day and it seems they lost it all in the forum update?

the mod release forums here has alot of badass skins, you just have to look through them all.
