They look very nice, they're the cats flaps!

However, if I had to pick One fault, a small criticism would be the glass.

Very nice! As pointed out though, the Orca is a little orange and the glass doesn't feel right (feels more like solid black plastic rather than glass, lol).

Have the renx team asked to use these? They are really nice! (still not keen on the glass, but really this is a minor thing)
