After some thinking as well as some personal things in my life, I realized the silliness of my flames toward you. I am not by any means becoming a *****, I only don't see the point in it. I just want to say I am sorry for attacking you both and have no ill's with either of you. What you both do and how you both play is your business. Truce, now lets go have fun.

Well thanks aqua, but I don't see why you would want to appologize since I'm a b*tch and act that way on purpose. But thank you for the appology and I appologize to you for ever saying anything mean to you. Oh and can I ask you a question?? What do you think they will do to Ack when they find out he's been posting pics. with the f' word on it? I hope the punishment has to do with bending him over and raming his *** little map up his azz, maybe his skins too.P.S. I think I ticked Ack off when I insulted his crap*y modding skills.
