After our succesful two games versus Jelly and Exodus, we challenged Atomix.

Game mode: AOW with clanwar settings (no start creds, no donate, no veteran system or any of that stuff, normal crates, pointsfix activated, etc). If you don't agree with the settings then don't sign up. A complete list of rules will be posted when the clanwars.cc site is back...

Complete rules:

Buddyhopping onto building roofs

The vehicle damage-increase glitch

Blocking your own harvester in any way

Jamming your enemy's harvester in a structure door

Teamshooting your assets (buildings or harvester)

"Flaming" vehicles or infantry using timed c4 (although you can wire up your own harvester)

Glitching C4s on an MCT

Harv walking

Blocking the enemy harvester by jamming a vehicle in the refinery bay

Hindering the enemy harvester by impeding it with your vehicle

Buddyhopping over walls (e.g. rehop on Field, or the base walls on Hourglass)

Date and time: Sat 20th of March, 8 PM GMT

Maps:
Under, Field, Canyon, Walls fly and Complex

Please download Hourglass2 and Mesa2 (are attached to this post) and add them to your renegade/data folder, just in case. More info on these maps can be found here

Server: KOSs2 will be hosting the server, unless Atomix comes up with something else

Signing up is possible until a few days before the game. All members of this forum can signup for this team, on a first come first served base, but let me make it clear that I can reject a candidate without motivation, based on personal judgement (I doubt this will happen but u never know). Signing up for renforums means you cannot sign up for jelly and vice versa. If you signup, then we count on you showing up.

We ask all players of our team to use teamspeak. You don't really need a mic though, you can just listen in. TS adress: ts3.thekoss2.org . Download teamspeak3 from www.teamspeak.com .

Spoony will lead our team, if he can make it. We've got a private strategy talk subforum for these games.

You didn't miss anything anyways...

Started off in a warpy as fuck server... Switched servers, server crashed.

Then we got are ass kicked on first 4 maps, so bad it didn't make any sense really. Spooky gave up halfway through 4th map. Half our team quit before 5th map.

It wasn't even fun imo... it was serious business.

it made perfect sense, a chunk of our team was flat out not listening to anything i said. there's no point, none, in me leading at all if people don't pay attention.

our teamwork for the first 2 series was impeccable... that one was absolutely laughable.

Honestly a downside on RF team, you guys have no snipers. Di3Hard and Surth are MAYBES, but they just can't level up to the Atomix snipers.

On Walls_Flying it was so desperate that even Spooky bought a sniper and got dropped in like .05 secs.

Anyways our team had fun even when we were down in points, we were cracking up on TS.

btw: Frozen wants Islands.

and im definitely not a sniper :/

All in all, most of our tactics depended too much on hotwires that werent covered against arties and sakuras. oh well.

um yes, if you have terrible organisation you aren't going to win community matches, and the whole point of this community is that we need a team who listens to the leader. they did just fine the first 2 series, that one was just a joke.

i don't mind losing at all, but i don't see the point at all in a community match with teamwork as bad as that.
