How much do you want to bet that the person who super imposed that image just did a random internet search for "elements harmful to humans" and just put whatever they found down, not knowing whether they were real or not. :V

I like how at 1:10 she tries to make a point with the guards saying, "See she doesn't have a dick"... But for 1. It is blurred out... and for 2. Photoshop...

That bitch is fucking ugly, and she can't sing halfway decent at all... I don't see how she has made it so big, but then again there were all those miniture advertisements throughout the video, maybe that is where she gets her money...

Never seen so many half naked chicks in a music video and not thought at least one was attractive... I mean shit, she even made Beyonce look retarded.

Anyone dumb enough to spend money on her music needs to be spayed or neutered... can't afford more idiots breeding.

That and they're not even showing her face at that point.

Yeah. I don't have much respect for artists that don't even write their lyrics, write their music, play their instruments or do their own editing. Papa Gaga is also fucking weird; not to mention ugly.

Agreed. Skinny and attractive are not the same thing.
