<http://news.ninemsn.com.au/world/1027360/woman-aims-to-become-worlds-fattest>

Quote:An obese mother in the US is trying to put on weight in order to become the world's fattest woman.

Donna Simpson, from New Jersey, weighs 273kg but told the Daily Mail newspaper she had her heart set on reaching her goal weight of 1000lb (450kg) in two years.

The 42-year-old already holds the title of the world's fattest mother after giving birth to her daughter in 2007 when she weighed 241kg.

"I'd love to be 1000lb ... it might be hard though, running after my daughter keeps my weight down," Ms Simpson told the Daily Mail.

Ms Simpson, who needs a mobility scooter to go shopping, eats huge amounts of junk food each week and tries to move as little as possible so she doesn't burn off as many calories.

"I do love cakes and sweet things, doughnuts are my favourite," she said.

Ms Simpson said she also loved eating sushi and would often eat 70 big pieces in one go.

Her 49-year-old partner Philippe — who she met on a dating site for plus-size people — was encouraging her to reach her goal, she said.

"I think he'd like it if I was bigger ... he's a real belly man and completely supports me," she said.

To put on enough weight, Ms Simpson will need to eat 12,000 calories a day, which is six times the recommended daily intake for women.

In order to pay for the enormous amounts of food she is eating — her weekly grocery bill is \$815 — Ms Simpson makes money by running a website where men pay to watch her consume fast food.

Discuss.

Those pictures aren't real. They were planned.

She is probably wearing a fat suit.

The only way to eat food from multiple fast food restaurants in one sitting is to travel to each place and buy food, hoard it up, and finally eat when you've collected enough.

No fat person has the patients or the will power to do that. Especially one who is too fat to walk.

Fat people are the only people who legitimately disgust me. Not just a bit overweight, but outright FAT like that.

Why the FUCK would you let yourself get that huge? It's not natural, looks terrible, is a serious health risk, and so many other negatives for no positives.

No "Man the harpoons!" comment yet? You fuckers are slacking.

Seriously though I hope that dumb bitch dies a pound short of her goal just because that is just completely fucking retarded... Also any sick fuck who pays to see a live version of hungry hungry hippos needs to die also, can't believe there are all these problems with global warming and air pollution when these fuckers are just wasting air with every breath they take.

I am really starting to believe that the story line from Idiocracy (movie) is coming true... someone take that kid from the fat bitch before she is influenced to much.

In short summary: God damn retards need to die.
