I got this message poping up when i want to play tiberium wars.

I am unsure what this is.

Part of the DRM - you're running a peice of software which emulates a disc drive (CloneDisc, Daemon Tools etc). You will have to shut this software down whilst trying to play, or better still, refuse to play the game on account of its invasive, liberty eroding, ultimately futile DRM.

Wow and thats what causing this?

I thought it was the mods i got.
