My god since I came here in like 4 years ago? all I seen on these forums currently is just sad, the forums them self are awesome, but the people and the shit they post is stupid. Lately all I've seen is people who have an IQ of 25 posting about cats, dumb ass photos and ever here and there someone brings up a religious statement and all hell breaks lose. then everyone starts posting about disrespecting comments about religion and how much they hate the blacks, Jews, and gays. Next to that we get a post now and then about should we perma banned this guy for blank reason which is the same reason half the other members do. and once every 2 weeks are so another Does anyone still play Renegade? topic is made, I mean some times I get general discussion and spam fest confused...no joke, I just can't wait for the reborn and apb new modes come out, along with TT but even with all that hard work and great mods/update, i guarantee there will be spam about it as well over these forums.

As I said don't get me wrong, renegade is awesome, these forums are great, the mods are nice and caring and some members are good people, but the people that lately have been running around this site need to just leave.

Uh-oh! People.. on the internet.. posting their opinion on Religion, race, and sexuality! You know why people prefer to do that online? Because here they have the freedom to do so, without censorship by the majority who disagree. They also have the freedom to be as big an asshole as they want, because after all they're hiding behind a computer screen. Deal with it, it will never end.

(SSnipe) -BLU3Y3Z- wrote on Mon, 05 April 2010 12:38My god since I came here in like 4 years ago? all I seen on these forums currently is just sad,the forums them self are awesome, but the people and the shit they post is ridicules. Lately all I've seen is people who have an IQ of 25 posting about cats, dumb ass photos and ever here

When i post a picture or gif I try to add humor to a thread. I don't post these pictures or gifs because I have an IQ of 25. Not only that, but I certainly will not post fucking lolcats, no matter where, when or for whatever reason.

(SSnipe) -BLU3Y3Z- wrote on Mon, 05 April 2010 12:38Next to that we get a post now and then about should we perma banned this guy for blank reason which is the same reason half the other members do.

There is a good reason we want a few certain people perma-banned. Archerman is one of them, G-man is another. They post the most garbage and create the worst threads. It should be of no suprise to you that the other members of this forum would gladly have them removed if it was within their power.

(SSnipe) -BLU3Y3Z- wrote on Mon, 05 April 2010 12:38once every 2 weeks are so another Does anyone still play Renegade? topic is made, I mean some times I get general discussion and spam fest confused...no joke,

It's near impossible to stop people from returning to these forums to find out if anyone is still playing. Not only that, it's rather unlikely they will go back a couple pages to find the last thread about this subject.

The topic creator could be having an issue with his game or something online such as GameSpy or WOL\XWIS. I had an issue with WOL\Xwis, where no game lists or players were being shown. The result was I quit Renegade and moved on to another game. That was until I found out I could still play via GameSpy. After that I quit all other games, and came back to Renegade immediately.

If anything, you should be welcoming these people back when they ask if people still play Renegade. A small increase in population is better than a decrease, which will only assist in Renegades demise.

(SSnipe) -BLU3Y3Z- wrote on Mon, 05 April 2010 12:38I just can't wait for the reborn and apb new modes come out, along with TT but even with all that hard work and great mods/update, i guarantee there will be spam about it as well over these forums.

As for the people asking questions about TT, APB, and Reborn, as well as other modifications I would have to agree those threads are rather pointless. I don't see why people can't be patient and understand these projects take a lot of hard work and time. Your complaints about it won't speed up its completion.

I really doubt you know me Ssnipe, because technically i am one of these newer members. However, understand i'm not trying to make enemies with you, i am simply arguing against most of what you have said in regards to these forums, its members and its content.

"but the people that lately have been running around this site need to just leave"

The people that are contributing to this forum need to GTFO... Then the lurkers will soon follow, due to the lack of new opportunities to hop in and randomly troll or post some useless but funny picture they found the other day...

Good idea!

you're right. Lets stop posting non-serious shit in the spam forums such as cats and dumb ass photos. While we're at it we can stop expressing our views about religion - especially in the heated discussion and debate section, because like the spam section, more serious stuff just shouldn't be posted there.

the only indicator i see of someone who has an IQ of 25 is your barely comprehensible sentences and shit grammar - even after a spell check.

I'm pretty sure SSnipe is trolling, namely because of "ridicules". For SSnipe this actually shows some development and understanding of internet culture. However, I actually agree with the points he was trying to make.
