well, the black list is just a warning to players, its up to them or they want to join or not. Its not: Hey thats a cheating server!!! Dont join it or els! Just a warning thats all

quote:Originally posted by kiwi98989:great idea! You know, I'd say I'd be better if you just had servers that cheat, not players. 'Cause, if a player who you know is going to join a game

you are in, are you going to want to leave the game just for him, probably not. But, there's a server that cheats, with knowing that you probably will not join...Now you might say that you are going to warn others on the server about a cheater, but that really won't make a difference.
