Right I had some problems posted a thread, sorted them.

Now I use RR and when I join a game it freezes on the 'Joining game' window

installed something lately? got latest update?

also try removing RR and/or relog

Upon trying today (been away for the weekend), I can get on some servers but the one I want to get on because im a mod, I can't.

I know its up and working because my friends are in it.
