Easy, you download and play the C&C Reborn infantry beta and you can see the character models while you are playing it. The Reborn website would be a good place to look for that.

As for getting the actual models themselves.... why do you want them? I doubt you have permission from the Reborn team to use them otherwise you wouldn't need to ask where to find them.

You can find a few on Game-Maps.NET otherwise... few searches here will find the full model set to use in Renegade.

But it's pretty easy to extract the files out of Reborn always.dat and use them in Renegade, but time consuming.

not really, inf beta was a little buggy and didn't have enough to keep people.

The upcoming vehicle beta, though, will be fun as hell
