Post every host that cheats.Mirari- I think he stopped playing but it was a sniper match. It was one minute long and we had no $$$. He bought a grendier and stareted attacking my PP. In which he earned like 34 points. When I killed him I got like 3 points. HE won I lost it was laddered. If it was not laddered I wouldn't care one bit but he did it during a laddered. I know it just a game. But hten when those peole who are rank 435 say "no your rank is low your a newb" it really insults me.

its ther server and they can do whatever they want..i play sniper wars sumtimes but not usually cuz some ***hole always has to screw it up i always put the name as sniper war no vehciles and then ppl come in and buy vehciles and come and destroy the barracks or the hon and that ****** me off because then we cant get snipers and i have to restart the server b/c some a**hole.

As soon as I was told I changed my mode of play.My point is bascially that not all are not at fault. It can happen innocently by mistake.

Yeah, If you want a snipers only match or other special conditions, DO NOT enable quick match.
