Random idea that popped into my head...

There is a second hd\_reticle\_hit (hd\_reticle\_hit2) that is the same thing without the four lines in the middle of the reticle i personally use that one.

May end up trying this reticle out. Been using the dot reticle for years now. Hardly end up playing Ren anymore anyway, but may get back on one or two games to try this out.

I don't really see any MW2 in it. Unless it's for PC and you guys have other reticles.
