Epic horse riding is epic. IRL, you'd need a horse that was either deaf, or seriously accustomed to gunfire and running through glass, which most horses aren't.

This video ranks the best out of all the ones posted.

For those who haven't seen it, it's well worth the watch.

The movie is korean - Spirit of Jeet Kune Do: Once Upon a Time in High School

The buildup to it seems very scripted with him practicing and talking to himself in the mirror in preparation to face the bullies. Then when the fight escalated in the lunchroom, its like as if the writers stepped back and just let it happen, i.e, a random unscripted animal rage of a fight.

I was thinking I would see him use the nunchuk in a fancy kind of way but no, he was just flinging that thing every fucking direction he could! It's seemed more realistic.

Yea I agree. I like martial arts movies where you get to see the build up and training beforehand. The usage of the nunchucks was pretty realistic yea.

fucking weirdo

the nunchucks were the only non-corny part...the rest were kicks with no power and girly punches that obviously only hit the air

eastern promises has the best fight scene, but i guess there's no "build up and training beforehand" for the weirdos

Lethal Weapon 1, because it had Gary Busey in it.
