Some of you maybe heard of my CoopBeta 3.00
It is based on the Mission Maps for Renegade where you can battle against a bunch of bots with teammates.

I just wanted to let you guys know that i still make Coop Maps, although it is for a different game but it is a free game

I am now making Coop Maps for Red Alert A Path Beyond.
You can play RA:APB for free, it is a game based on the Renegade engine. It has buildings, vehicles and infantry similar to the way Renegade works, but in the Red Alert Universe setting.

If i sparked your interest in this game you can download it here:

You can download all my Coop maps here:
<http://apb.game-maps.net/index.php?act=category&id=95>

Some screenshots of the maps:

We are running a special Coop server for 22 players. So hopefully i will see you guys ingame sometime

PS: I am working on the first allied mission map at the moment:
http://www.zunnie.net/apb/RA_Allied_M01/

I hope to finish it soon

There are regularly 20+ players online. At early hours usually 6+
I'm talking about MPAPB now, dunno about other servers.

You can find real time statistics here:
<http://apb.mp-gaming.com/>

You'll also find a very sophisitacted and addictive stats system.

It is not exactly the same as the mission 1 for allies but
it is fairly close
Some buildings dont exist in apb yet like the Techcenter and Kennel..

The map it should resemble:

Rescue Einstein from soviet hands, held hostage in the Radar Dome, take him to the naval transport at the start of map.

Many thanks to cuddling for helping with getting the Einstein model ingame
