download map

The first mission from Renegade's Single Player now available in Multiplayer for Coop

You can play this map on my server on XWIS under the nickname "zzzzzzk" or direct connect to it with IP 109.230.246.231 and port 4855

CnC Intro lol, retro map. I like it, good Nod ambush from Westwood. I shiver because of one thought about this mission. But I think it needs the winning position. I can make it with your permission, zunnie =)

EDIT: I mean, I can't win on this map in Multiplayer LAN.

My server is back online now, nickname on XWIS=zunnie, it was gone for a few months. You can now play the 3 coop maps i done so far again

You can download the Coop maps over here:
<http://ren.game-maps.net/index.php?act=category&id=224>

I am preparing an FDS and Bot (By Blacky) for release, it is a beta though. Then you can host your own games if you want.

These maps will not work in LAN mode from within the game, you must play it through the FDS for Renegade.

If anyone is interested in helping with making more coop maps then feel free to join my channel on [#z](http://irc.mp-gaming.com)
This #z is also the channel where my server reports to.

Seeya on irc maybe
