I keep seeing you say this.

What exactly are the minimum standards of spam?

Let me put it this way, the best spam doesn't exist.

I thought we took a vote and the results were that all spam would be allowed.

If you want an unrestricted forum, the moderators demand equal unrestricted (within reason, thus you can't post content that violates the rules, and we can't ban you unless you do).

Doesn't mean we can't troll-edit, lock topics, and generally be pests.

Or: "HA! Now you know how it feels!".
