Hello,

I have a little problem, i already used the search, but didnt find anything that could help me.

I want to use the Rank plugin from Hex.

The bot upload the .txt file but for some reason i cant get the php part working. I changed the config file and now?

What must i do with this sql?

I tried to import it to the mysql but:

```
SET NAMES "
```

```
#1115 - Unknown character set: "
```

I hope someone can help me.
