Ok so it loads ok no errors nothing then when you join and it doesn't matter who joins it crash's and restarts and crashes again.

my bot is Brenbot, ssgm is on the server, no mods no custom scripts nothing.

this is what it says in irc.

<&DisBot> 9Loading level C&C\_Field.mix

<&DisBot> 14Host: Teams have been remixed.

<&DisBot> 14Host: [BR] Settings for C&C\_Field.mix: Time Limit: 30, Mine Limit: 35, Vehicle Limit: 8. Donations are allowed after 10 minutes.

<&DisBot> 3[GENERAL] 16 Current game on map C&C\_Field.mix has ended. Game was won by GDI by Server Shutdown.

Could it be ssgm?

it's happening to my friends server to it all loads fine no errors or anything then when someone joins it restarts the server everytime...

If i need to get crash dumps i will.
