Fun. I played this thing on CNCU WOLF server at Gamespy. I only played once as NOD, and this is what I have gathered.1) dont lose your pp in the opening minutes of the game. That makes things incredibly difficult2)GDI auto-turrets are absolute manglers. Somehow, NOD needs to work together and take them out (maybe with a team of snipers?) because I could not get a NOD apc past them.3) Visiting Wendys and Best Buy is a must.I enjoy a well-designed new map. Fun Fun Fun.PS: Does anyone know where I can get a .mix file of "BOXED IN" and "LUNAR LANDING" fan maps?

When the RA1 mod gets up, there won't be any shortage of servers to play on
