Since when do you have to register with XWIS? That's incredibly lame and pointless, it used to work just fine with nicknames registered by signing in to WOL.

Since early this year. If a player tries to login with a nickname that already exists and has the wrong password or with a nick that doesn't exist they get a cryptic error.

try

[http://www.renegadewiki.com/index.php/Registering\\_a\\_nick\\_on\\_XWIS](http://www.renegadewiki.com/index.php/Registering_a_nick_on_XWIS)

if it doesn't its probably an issue on XWIS' side, considering how absolutely shitty it is

People should really try to read sticky's

PS. Do people still use the WIKI?
