well, i dont own the model but so far, i changed some smaller details, boned it and textured it completely. The Whole 3x 3 Rail gattling gun is out of 100k polys so in that amount and my Renegade can handle it without problems, so it should work.

Here are a few imagines of the Model, and while sitting inside

It doesn't really fit the game in my honest opinion.

"we" dont use it for this game

i might use it in my mods or i might use it in a singleplayer/coop player campaign in TCW
