I am more interested in how he got hold of scripts.dll 4.0 since I don't believe he is on the testers
list... if hes using something unofficial its no wonder he keeps crashing lol

haha, I heard mrackz is mentally retarded

See how that works? It's easy to just write random crap. Not sure why you thought it was worth posting that to the forums and you might want to be careful you don't overstep the 'no posting on behalf of banned members' forum rule.

Where the fuck am I doing that? I'm dumping hilarious crap in the SPAM forums, not sure what that has to do with the 'posting on someone else's behalves' rule.

He just mentioned on my test FDS that it takes 2 PC to knock out renforums.com, so I guess that's why.
