Yeah, it was flaky (going up and down) all day and now it's been down for about an hour and a half. Way to go, XWIS. :\

Yea let's hope xwis comes back online before the event starts.
Otherwise we'll have to re-schedule it some other time

Hm, i think TT should be in control of XWIS, it only makes sense to me :/

use gamespy while xwis is off.

btw.. xwis should get and some backup servers when main server is off

nope, it would be bad
one reason being XWIS isn't solely for renegade; Red Alert 2 uses it as well
i'm sure some other games are still on it

hopefully it comes back online soon

From my WOLProxy logs, it looks like it's been up and down for the last couple of days.
