Quick easy question.

I cannot find the command in scripts to display a message at the center of the screen, does anyone know what it is? I know it exists, as I have seen it somewhere before in the code...

No, like the 16pt text that shows up dead center of the screen on the Skirmish Under map the first time you look at certain things.

hud should have more things, like custom menus, having a rank displayed on hud or anything else.

@halo2pac, lets wait
