I miss the phase 1 beta testers. The only people left behind from those days (before any of you!)

are Crimson, myself, FalconXL, and maybe a couple of other guys that happen to visit occasionally. The old WL clan roster made up of the beta testers:

Aircraftkiller
Alien13UFO
Anakaris
Arc
Assud
Crimson
Demolition Man
Dudex
Falconxl
fatalwolf
Idan
Iranoob
Johndel
Kingdud
LordMacaroni
Kutta
Nyogtha
Ratkiler4
RedOPS
RudeCane
SencneS
Shirhall
Sn0wwolf
Ultron10
Vash
Winter_Fresh

And does anyone other than me remember kdsnex, who hosted a pre-1.030 (pre-flying unit release) beta test server where he spawned Orcas on Under? (He also spawned a gunboat a couple times, if I remember correctly. Long before any of today's serverside mods were able to do so.)

Agreed, no reload killed them, tbh. Granted it is fun, it's not the oldschool sniping.

Everytime someone tries to go back to those days of reload sniping, people never play in the server because they've become so accustomed to that no reload bs.

the person who is a moderator here, or used to be, but I can't remember her name. It's like in the back of my mind and won't come out. But she seemed to use a PIC Sydney exclusively.

By the way, c4kitty was the most annoying person I've ever played Renegade with. Anyone know a way of retrieving old nicknames a person used? I've had retarded nicknames when Renegade was just released (~2003-2004). Stuff like Stealthcat and StealthYuri if I recall correctly. It's on a serial that's been lost.

And shocked that msgtpain is cheater? He often had retarded headshots but at least he was one of the cheaters that could hide it well. Believe he even was a mod at Jelly for a while.

Randomly dropping in and bumping but figured if anyone has kept any of *their* oldest in-game screenshots to post.

<http://imageshack.us/photo/my-images/13/Old-times.jpg/>

I believe this is probably April/May 2002. As for some of those other name drops. It's been super long. I completely forgot about s2luga. For the screenshot, I'm not sure how many people remember these, but I certainly do!

Kain usually accompanied by Cecil

Patch (who fell off the face of the earth as far as I know)

Confusion (who I shortly joined their clan probably not too long after this screenshot)

Second look, Nemicron actually was in a later clan of mine as [TA]Nem who I believe hosted our server.

People I didn't talk to but remember - A drunken sniper_Bp, Codhex/codex?_BP (BP clan came from demo)

Also, how about that obelisk hopping! How pointless, but hilarious.

I'll do some name dropping as well in case anyone's seen/heard from

Retto

(From [RED]) - Funny story, I tried to join RED once on a smurf name, but you had to answer questions in regards to military things. I'm not sure if you needed to do well with it or not, but I couldn't have been troubled to try. Though I would have found it funny to play others in a horrible clan just to see the turnout. Though it earns its honors in being harder to join than OOU was! (with the real c4smoke) And even have a recording of c4smoke. How priceless is that =)

Namedrop for Adam_Prater, who I didn't talk to but no one's mentioning.

Raveshaw I believe his name was, the aussie sniper/pic/raveshaw

Just because they haven't been mentioned and they're from TA - MoP and Kill4fun/kfc

Shoutout to BA / RED for a lot of interesting lobbies.

Also, Cerealkiller will always have a special place in me and mrpirate's heart. As for Fobby's list, I remember about 28 of them. Also, was a part of the original WOL vs GSA war! Some of the people I believe it was Matt who picked for GSA was absolutely horrendous! Even still, fun to be a part of it...

Anyways sorry for the bumping, but just interested if anyone else had any 2002 pictures. Oh, and to say Hi since I was mentioned I suppose

I do indeed remember.

Back then I was in -?- I remember recruiting Gollom. He was such a nice guy. There must be 5 that I don't remember from that list and i haven't seen them since. The fun thing about RCM Marathon is that after the 1hour time frame cAMpa encouraged more aow play by disabling the base defenses, giving you ions/nukes and creating ion storms which did damage to your buildings. Pretty much always made the marathon side of things come to a end, one way or the other. The likes of Jelly where you can play a single map for 5hrs...fuck that. But all marathon's are pretty boring now - that's why I turned back to aow.

I still remember you and supi getting me and majid to say offensive gay German words...lol
