Not a GOOD strategy, and not worth trying:

Be a n00b and get reported at <http://www.n00bstories.com>

It doesn't work dammit!
When i tried it out! I was giving out free tanks for the other team. So my team would lose, but no!
WE WON FFS!

I just can't lose...

Losing can be quite fun, if your team manages to hold one building very long before it finally dies.

I love to loose. It is my way of life. My team has lost nearly all the times I played. Maybe 3-5 wins out of them all. Therefor my tactics reflect losing.

Losing tactics part one:
Cheap chracters almost all game.
Chaingun down everything that turns your curosr red.
Forget kills, weakened troops/tanks die faster at your teammates' hands.
When lag is bad stare at an MCT with repair gun.
Tanks are for people who can multi-task.
Fun is fun where-ever you rank in a game.
Give your teammates as much recon as they can ignore.

When you begin to lose, do you leave the server, avoiding the risk of having points taken off, or do you stick around and fight as a loyal soldier?
